The Rhode Island Legislature is trying to solve the problem of a successor to Senstop Chace. There is a vigorous ful ballots have already been taken.

Hop. J. V. McDunle, the Republican Congressional contestant who was latel driven from his district in Alabama b Bourbon bulliozers, was a resident c fully during the war in Colonel Hepbu n's lows regiment. He has been a resident. nd a peaceable citizen of Alabama since the close of the war. His sole offence is that he was fairly elected, sought to ga his rights by a legal contest.

Four car loads of material for exhibits at the Paris Exposition have been shipped from the Agricultural Department, under the direction of Protessor Riley, who Bas gone to Varis in charge of the exhibits. They consist of grain, citrons and other fruits, / cotton and fibres, / viticulture topacco and peanuts, exhibits representing the work of the experimental stations and agricultural colleges. The department expects to give a good account of itself and to make a display that Americans will not be ashamed of.

A Wheeling, West Virginia, deepate says: General Goll, the Republican candidate for Governor, who received the mafority of the votes cast in the recent elecn in this State, and is now engaged. In a contest before the Legislature to establish his claims, arrived here Monday evening for a conterence with his friends in this part of the State. In an interview he asseried in the strongest way his determina-Hop to push his claim in all possible way and before all proper telbunals, and eale he felt confident that the Legislature would, from the cyldence he should place before the special committee, finally acknowledge the justness of his position and the soundaces of his claim to bo the legal Governor of the State. General Goff will remain here for a day or two, and will then return to his home at Clarkeburg. .

Foreign Ministers.

Among all the prominent appointments of President Harrison thus far it seems t us that his nomination for the position of Minister to England will be most disag pointing to the high public expectations names 29 those of Justice Miller, William M. Evarts, Chaunchy M. Depew and White-Law, Reld. The newspaper reports that the President declined to send Whitelaw Relia to the Court of Salpt James because be desired a minister of the very highest order of ability, did not brepare the public for the designation of ex-Secretary Lie-coln, who has had no diplomation official experience except a rather ordinary term, of service a Secretary of War. masters of thought and such forceful ex-

The Washington correspondent of the Boston Journal writes: The Post Office Department has indicated what its policy s to be in the matter of the rallway mail service. In one general order the Postmaster General has removed the focumbents and has restored to their old places the Railway Mell Superintendents in five of the great divisions. The gentlement who

New York and Mr. W. H. Bigelow in Bostheir respective divisions, brought the tallway mail service to such efficiency, and it was after their removal that the complaints of the demoralization in the service on the part of the public was heard which have since continued. The weakest spot in the inst administration of the Post Office Department was this service. It is understood to be the purpose of the Postmaster General and of the President, so far ne is possible, to restore to their old places the body of the rank and file of the working force on the polital cars, with the expectation that the postal service will be radically improved. It was for this rea-son that the rule extending the civil fervice rules to the railway mail/service was extended by the President so that it should
